# Enterprise Europe Network

risingSUD coordinates the Enterprise Europe Network for the South of France, a territory that includes the Provence-Alpes-Côte d'Azur, Occitanie, and Corse administrative regions. The EEN is a system of experts and organisations that supports small and medium-sized enterprises (SMEs) that view the single market, European funding, and international partnerships as potential drivers of growth.

## WHAT ARE THE ADVANTAGES?

Companies benefit from an extended range of services offered by the EEN in the 65 member countries of the network, such as:

- Advice on international expansion, regulatory issues, innovation, and access to European funding
- Identification of potential business, technological, or R&D partners
- Visibility at the world's leading technology fairs through business conventions and B2B meetings organized by the network (300 events per year)
- Free access to all services

## WITH WHO?

In Provence-Alpes-Côte d'Azur, the service is provided by an eight-person team of professionals in partnership with the regional Chamber of Commerce and Industry.
