

## A CUTTING-EDGE ECOSYSTEM THAT GENERATES OPPORTUNITIES

- **Eurobiomed, interregional competitiveness cluster** (Marseille, Nice/Sophia Antipolis - Toulouse, Montpellier)  
Supports companies and cooperates with research organizations to help them innovate, finance, and develop to improve the care and life of patients.
- **Marseille Immunopôle** (Marseille)  
World-class cluster exclusively dedicated to pioneering immunotherapy research and development  
**MI-JOBS:** facilitate access to job and internship offers from cluster members  
**MI-BIOPARK:** dedicated business park
- **7 connected clusters**
  - TEAM Henri-Fabre (industrial innovation)
  - Secured Communicating Solutions hub
  - Pôle Mer (blue economy)
  - InnovAlliance (food, wellbeing, natural living)
  - Novachim (chemicals and materials)
  - Pôle Services à la Personne (silver economy)
  - Optitec (light-related technologies)
- **Support structures**
  - Accelerators: Biotech/Medtech Go4Bio
  - Incubators: Impulse (Marseille), PACA-EST (Sophia Antipolis)
  - Biotech de Grand Luminy start-up program (Marseille)
  - Marseille Innovation
  - Factory 319 start-up studio
- **#1 technology park in Europe** (Sophia-Antipolis)  
**BIOPARC:** dedicated to activities in the life sciences sector
- **Leveraging research**
  - Canceropôle PACA (Marseille, Nice)
  - Protisvalor (Marseille)
  - SATT Sud-Est (Marseille)

## A DEDICATED RANGE OF HR SERVICES FOR YOUR LAUNCH OR RELOCATION PROJECT

The Skills & Talents service at risingSUD mobilizes employment and training stakeholders in order to provide comprehensive support services (consulting, recruitment, training, financing) at every stage of a company's project:

- identifying the HR needs and expectations of the company
- mobilizing the appropriate networks for the project
- creating solutions with local partners

In special partnership with regional stakeholders such as DIRECCTE, the Region Sud, the Academies of Aix-Marseille and Nice, the Pôle Emploi, APEC, the Campus des Métiers et des Qualifications training network, OFII, AFPA...

**IN THE SUD REGION  
OUR SKILLS  
AND TALENTS ARE DEVELOPING  
INNOVATIVE THERAPIES  
FOR THE FUTURE**

“ *Innovating for better care is our priority. Even more so in 2021, the year with the biggest of health challenges. The Sud region is extremely attractive in terms of innovative therapies, particularly in immunology and infectiology. It has firmly established its excellence in the biotech sector. We fully support our industries! Our objective is to work by your side so that innovation becomes progress, for the benefit of everybody.* ”

Renaud MUSELIER  
President of the Provence-Alpes-Côte d'Azur Region  
Deputy President of the Regions of France

## KEY FIGURES

## THE SUD REGION, LAND OF INNOVATIVE THERAPIES

- ONE AMBITION**  
To become the model European region for the design and production of the therapies of tomorrow.
- THE INNOVATIVE THERAPIES STRATEGIC SECTOR (O.I.R. PROGRAM)**  
A support system and acceleration tools for the emergence and consolidation of major structural projects in the fields of biotechnology, medical devices, diagnostics, and services that play a role in the development chain for innovative healthcare products.
- RENOWNED AREAS OF EXPERTISE**  
#biotechnology #oncology #infectious diseases #immunotherapy #neurology
- A GLOBAL DIGITAL HUB TO ACCELERATE THE DEVELOPMENT OF E-HEALTH**  
14 submarine telecommunications cables linking Asia, Africa, and Europe to Marseille.

## AN ECOSYSTEM WITH GLOBAL LEADERS AND RISING STARS

A few examples of the companies thriving in the Sud region:  
Arkopharma • Bayer • Biotech Dental • HaliuDx • ImCheck Therapeutics • Innate Pharma • Innoskel • Ipsen • Lundbeck-Elaiapharm • Neuroservices • Nuvisan Pharma • Provepharm • Sangamo Therapeutics • Sanofi • Sartorius • Syneos Health • Virbac

## WORLD-CLASS TRAINING AND CUTTING-EDGE FACILITIES TO DEVELOP THE FULL POTENTIAL OF ALL OUR TALENT

- 4 universities**  
• Aix-Marseille University • University of Avignon • University of Toulon • University Côte d'Azur
- 11 engineering schools**  
• École Centrale, *Marseille* • École des Mines de Saint-Etienne, *Gardanne* • Epitech, *Marseille, Nice* • Esaip, *Aix-en-Provence* • Esimed, *Marseille* • Eurecom, *Sophia Antipolis* • ISEN Méditerranée, *Toulon* • Polytech, *Marseille, Nice* • SeaTech, *Toulon*
- 3 university research centers**  
• Graduate School and Research of Health Science Ecosystems, *Nice* • Life and Health Sciences, *Nice* • NeuroSchool, *Marseille*
- 3 Campus des Métiers et des Qualifications training centers**  
• Blue Economy • Digital • Silver Economy
- 3IA Côte d'Azur**  
One of the four interdisciplinary artificial intelligence institutes in France  
• Health and biology technologies
- #2 hospital network in France**  
APHM - university hospitals of Marseille
- #3 region in France**  
for scientific publications in medical research
- Pioneering laboratories**  
INSERM • CNRS • CEA • IRD • INRA • IFSSTAR • APHM • Institut Paoli-Calmettes (#2 oncology center in France) • IHU Méditerranée Infection • IRCAN • IPMC

- 2** medical schools with diverse programs (general or specialized medicine, midwifery, dentistry, physiotherapy nursing, etc.)
- 54** pharmaceutical programs from high school to graduate degrees
- 30 000** students in biology, biochemistry, health, and bioinformatics
- 17 000** students in health and social programs at 93 different sites

“ *It's important for Multiwave Imaging to be in Marseille to develop MRI products for the early diagnosis of certain diseases because of the proximity of specialized research institutes. The Multiwave research chair was created in Marseille with our collaborators at Aix-Marseille University (the Institut Fresnel and CRMBM-Cemerem) to develop new technologies in this field. (...) Expertise is essential for us and in Marseille it's easier to find the right people who have the necessary training from the university institutes.* ”

**Elodie Georget-Paris**  
PhD and COO at MULTIWAVE IMAGING
